ISSUES

1

ECONOMY

Jon wants to build a vibrant economy in which all Americans can thrive. As a small business owner himself, Jon understands the challenges that small businesses face and will fight hard to reduce their tax burden and health insurance premiums.

2

NATIONAL SECURITY

As a former national security staffer in D.C., Jon understands the threats America faces. He will push for a tough, smart foreign policy that protects our national security without sacrificing human rights.

3

HEALTH CARE

Jon believes that every American should have access to quality, affordable health care. He opposes the proposed repeal and replacement of the Affordable Care Act that would strip 24 million Americans, including up to 2 million Asian Americans and 200,000 Vietnamese Americans, of their health insurance.
